

E-Commerce Company			
REPORT DATE		COMPANY NAME	PREPARED BY
01/29/2026		Tech Shop	Hai Thu Le
SUMMARY			
Strategy for converting website's viewers to purchasing customers and increasing the returning customer rate. Understanding customer behavior by analyzing the number of viewers, customers who added items to their cart and customers who placed their order. The data indicates positive both in the website traffic and the revenue growth trends, suggesting effective customer acquisition strategies.			
INSIGHTS AND RECOMMENDATIONS			
Insights		Conversion Funnel Analysis	
The conversion funnel analysis reveals that 10% of product page viewers completed a purchase, while 29% of viewers engaged with the shopping cart functionality. Among users who added items to their shopping cart, 35% successfully converted to complete a purchase, indicating a cart-to-purchase conversion rate of 35%.		Customer Behavior Analyze 	
Recommendations			
Focused on the strategy to convert viewers to purchasing customers We should investigation the customer behavior after their first purchasing			
INSIGHT AND RECOMMENDATION			
Insights		Customer Returning Rate	
The 6.8% returning customer rate indicates significant room for improvement in customer retention strategies. Analyzing Retention Rate to show the % of returning customers in month 1, month 2, month 4.		Returning Customer Rate 	
Recommendations			
With only 6.8% of customers making repeat purchases, there's substantial opportunity to optimize the post-purchase experience. This retention rate suggests potential issues in customer satisfaction, product quality, or follow-up engagement strategies. We should investigate the reasons which impacted to the number of returning customer.			
INSIGHT AND RECOMMENDATION			
Insights		Revenue Analyze	
This analysis reveals significant revenue growth opportunities. The analysis identifies key drivers for sustainable revenue growth.		Revenue Analyze 	
Recommendations			
The increasing trends suggest revenue growth potential. The website has strong traffic acquisition and positive revenue growth trends but the 6.8% returning customer rate significantly underperforms industry standard.			
CONCLUSION			
Implement the strategy focused on pricing, shipping, quality of product and customer services to support customer on their purchase. Implement a structured rewards system as the based-point customer loyalty program. Send the discount coupon after their first order. Sending out some advertising campaign or promotion emails between their second time and third time purchasing.
